

## **Angel Aligner™ Announces State-of-the-Art Manufacturing Facility in Greater Milwaukee**

SAN CLEMENTE, CA, UNITED STATES, March 13, 2025:

Angelalign Technology Inc. (HK:6699) (Angel Aligner™) [www.angelaligner.com](http://www.angelaligner.com) a global leader in orthodontic clear aligner technology, today announced that it will build a new manufacturing facility in Greater Milwaukee, Wisconsin.

The cutting-edge facility – its first in the U.S. – will bring its innovative aligner production closer to its growing customer base in America. Phase 1 will generate nearly 200 jobs, including 100 construction jobs and up to 80 permanent jobs in the facility. The 52,000-square-foot facility at 10551 South Oakview Parkway, Oak Creek, Wisconsin, with its automated, proprietary 3D printing technology will be one of the world’s most advanced aligner manufacturing centers. To further the commitment to bringing manufacturing closer to the customer base in the Americas, Angel Aligner is simultaneously scaling treatment planning capacity and aligner manufacturing in Brazil.

“This expansion represents a milestone in the continued evolution of our global growth strategy, reinforcing our commitment to our long-term presence in the North American market,” said Fox Hu, CEO of Angelalign Technology Inc. “It will enhance our service to Angel Aligner’s North American customers while creating job opportunities in the local community.”

"Our priority is to remain highly responsive to the needs of our customers while delivering innovative products and exceptional service," said Jason Tabb, Vice President and General Manager of North America. "This new manufacturing facility is a testament to our commitment to customer-centric innovation and elevating the experience for orthodontists and their patients."

Angel Aligner's investment in U.S. manufacturing highlights its dedication to advancing clear aligner technology, ensuring high-quality production standards, and offering flexible customer options.
